Re: Council File 09-1977-S2
Motion for LAFD Brush Clearance Recommendations

Dear President Wesson and Honorable Councilmembers:

The Federation of Hillside and Canyon Associations, Inc., founded in 1952, represents 45 homeowner and resident associations with approximately 250,000 constituents spanning the Santa Monica Mountains. The executive committee of the Hillside Federation has reviewed and supports the pending motion to receive LAFD's recommendations for additional brush clearance safety requirements.

The motion recitals note that Bel Air community members were fortunate a 1.2-acre fire in June was quickly extinguished. The motion does not mention the 55-acre Mandeville Canyon fire in late May, which was sparked by overheated brush clearance equipment.¹ News reports stated that 15 fire companies responded, closing Mandeville Canyon Road for hours, and requiring LAFD "hot-spot" supervision for the better part of two days.

Requiring additional safety measures such as fire extinguishing equipment when performing brush clearance within Very High Fire Severity Zones is a common sense solution to substantially reduce the risk of brush fires. The Hillside Federation supports the motion.

Sincerely,

Charley Mims
