Honorable Commissioners:

The Board of Directors of the Federation of Hillside and Canyon Associations, representing thirty-two homeowner associations from the 405 freeway to Mt. Washington, unanimously supports the buried concrete cover option for the required covering of Upper Stone Canyon Reservoir. This option was selected because it is the most environmentally sound and will preserve the integrity of the natural character of the area. In the long run, a buried concrete cover will probably also be the most economical.

We urge you to approve a buried concrete cover for Upper Stone Canyon.

Sincerely yours,

Marian Dodge
